*in Kombination mit NFC / RFID - Schlüsselanhänger
Desktop NFC / RFID Leser*

Mobile Schlüsselregistrierung / Ausgabe Rücknahme

“Made in Germany“

Hintergrund und Einführung:

Unternehmen, Behörden und andere Institutionen verwenden regelmäßig sehr viel Zeit mit dem suchen von Schlüsseln oder Schlüsselbunden.

Wer hat wann welchen Schlüssel von wem erhalten? Oft nutzen Unternehmen, Behörden und andere Institutionen noch Papier basierte Schlüsselausgabeformulare oder Schlüsselbücher. Gerade im Zeitalter des Fachkräftemangels verschwenden Mitarbeiterinnen und Mitarbeiter viel kostbare Arbeitszeit für die Schlüsselsuche. Selbst wenn ein Schlüsselbuch geführt wird, ist der Zeitaufwand groß und umfangreiche Kommunikation per Telefon oder persönlich notwendig, um mit dem Verantwortlichen zu kommunizieren, wer wann die Schlüssel wem gegeben hat. Die Schlüsselausgabe muss mit Zeit und Datum protokolliert werden. Ist der Schlüssel-Manager abwesend, so wird die Dokumentation und das finden des Schlüssels noch aufwändiger.

Die **arfidex FLEX APP KEYREG zur Mobilen Schlüsselausgabe** ist eine APP aus der Produktreihe arfidex FLEX NFC APPs. Diese ermöglicht das dokumentieren, und finden von Schlüsseln und wer diese als Letzte Person erhalten hat, auf einfachste Art und Weise mittels auslesen des NFC Schlüssel-anhängers mit dem Smart- oder iPhone.

Die Anwendung kann sowohl Web basierend am PC, Laptop oder Tablet mit Betriebssystemen Microsoft Windows™, Android™ und iOS™ als auch mit Smartphones/ iPhones benutzt werden.

Mobile Schlüsselregistrierung / Ausgabe Rücknahme

“Made in Germany“

Die Schlüsselverwaltung erfolgt am PC durch die Administratorin oder den Administrator. Mit Hilfe des Administrator-Panels werden einmalig alle Schlüssel oder Schlüsselbunde durch einlesen des NFC Schlüsselanhängers registriert. Wurden alle Schlüssel registriert, so ist ein Eingriff des Administrators selten notwendig, da die Mobile Schlüssel-Aus- und Weitergabe durch Nutzung der KEXREG APP mit Mobiltelefonen vor Ort erfolgt.
